

## This week's update (week27, 2020)

### ~Stream Jet Printing Solution Packaging~

UV inkjet printing solution with offline sheet-fed operation of a paper packaging.

- **Kikuzen format**

A serial barcode is printed on the pre-printed Kikuzen format (636 x 939mm) using [Stream Jet](#).

The specifications are such that the cost merit of products in which multiple small boxes such as individual boxes are attached is likely to occur.

- **Blanks**

A fixed barcode is printed on blanks by [Stream Jet](#).

Since it can be printed in the state of blanks, it is ideal for small lot production.
