

This week's update (week29, 2020)

~Color Stream Jet Printing Solution Book-on-Demand~

UV inkjet print solution for Book-on-demand.

- **Double sided full-color digital printer**

SKYLINE™ is a full-color digital printer for book-on-demand.

By performing digital printing with **Color Stream Jet** on both sides of the roll and docking with the post-processing machine, you can operate consistent production and processing from sheet cuts to book blocks. The maximum printing speed reaches 150m/min.

Because it uses UV ink, you can print directly on coated paper or general offset paper without pre-coating.
