

TPS TEXTILE PRINTING & SUSTAINABILITY CONFERENCE

DISRUPTIVE SOLUTIONS FOR SUSTAINABLE PRINTING ON TEXTILES

8-9 SEPTEMBER 2022
DORINT KONGRESSHOTEL DÜSSELDORF-NEUSS

Over generations, the textile industry has built the reputation of one of the world's biggest polluters. Today, it recognises and answers to the call for change. The shift in environmental and social awareness impacts textile markets, business models and production techniques. Print technology has an important role to play here and explores opportunities presented by advances in **automatisation and digitalisation**.

The new **Textile Printing & Sustainability Conference (TPS)** looks at all critical factors and global trends which influence the textile market condition today and in the nearest future: customer-made fashion, responsible businesses, quality concerns, customisation and personalisation... The event assembles industry experts from two main printing processes – **screen and inkjet** – to promote best practices, discuss new application fields and explain benefits and challenges of individual technology choices.

With the existing resources and know-how accumulated over thirty years of its service to industrial, functional and specialist printing community, ESMA is confidently looking forward to welcoming you at the inaugural edition of TPS. Together with our partner and industry veteran, Thomas Poetz, we invite you to join this new **platform for learning and networking** about the disruptive developments in printing on all types of textiles.

TARGET GROUPS

- DESIGNERS
- PRINTERS, DYERS
- BRAND OWNERS
- E-COMMERCE, DISTRIBUTORS, RETAILERS
- ENGINEERS, CHEMISTS
- PRODUCTION DEVELOPERS
- SUSTAINABILITY OFFICERS
- NGOs, ASSOCIATIONS, REGULATORS
- EVERYONE ENGAGED IN SUSTAINABILITY IN TEXTILE PRODUCTION

MARKETS COVERED

- FASHION
- GARMENT
- SPORTSWEAR
- WORKWEAR
- HOME TEXTILES
- E-TEXTILES
- WEARABLES

CONFERENCE

Textile Printing & Sustainability takes a maximally wide angle on the market and technology evolution. The conference covers the **entire supply chain**, involves manufacturers of products which support the handling of fabrics (pre- and post-treatment), the printing process itself (inks and equipment), as well as printers, value added resellers and brand owners. From material science, through print systems, to micro-factories and finishing – TPS brings together all those who drive change and contribute to innovation.

TOPICS PRESENTED AND DISCUSSED

TECHNOLOGY

- HARDWARE (printheads, electronics, systems)
- WORKFLOW AUTOMATISATION (software, RIP, CM, stitching, cutting)
- CHEMISTRY (inks, pre- and post-treatment)
- APPLICATIONS (home textiles, apparel, sports- and workwear, DTG, DTF, smart textiles)

SUSTAINABILITY

- SITUATION TODAY
- TECHNOLOGY FOR WATER AND ENERGY REDUCTION
- CIRCULAR ECONOMY
- BUSINESS MODELS (case studies and success stories)

The event will start in the morning of the 8th and finish in the afternoon of the 9th of September 2022. The conference programme will include approximately 40 presentations, ranging from technical speeches to business cases and market overviews. **Please submit your presentation topic to mb@esma.com by the 31st of March 2022.**

NETWORKING

TPS is a two-day conference organised at Dorint Kongresshotel in Neuss, Germany, with a parallel tabletop exhibition of approximately 45 tabletop stands. All technology supplier presentations need to book a tabletop for commercial information exchange. Are you a research institute, print service provider or a brand owner and do you want to present your textile printing project as a case study? This is possible and you don't need to book a tabletop for that. Please contact info@esma.com for further details.

TABLETOP FEE INCLUDES

- 2 EXHIBITOR PASSES
- 1 SPEAKER PASS
- TABLE WITH 2 CHAIRS
- BEVERAGES, LUNCHES AND NETWORKING RECEPTION
- EXPOSURE IN TPS MARKETING CAMPAIGN

VENUE

Textile Printing & Sustainability Conference 2022 takes place in the 4-star Dorint Kongresshotel in Düsseldorf/Neuss, suitable to receive more than 400 participants. TPS attendees enjoy advantageous room rates.

EXHIBITOR FEES

- ESMA MEMBERS 2,195 EUR
- NON-MEMBERS 2,695 EUR
- special rates available for academics and start-ups

DELEGATE FEES

- ESMA MEMBERS 555 EUR
- NON-MEMBERS 655 EUR
- if booked by 30.06.22 555 EUR
- ACADEMICS 295 EUR

All delegate fees are subject to 19% VAT

ORGANISERS

Textile Printing & Sustainability is organised by ESMA, the European Specialist Printing Manufacturers Association in collaboration with Thomas Poetz, an independent industry consultant.
